

## JEMS 2009 Hot Products

Innovative new products showcased at the 27th Annual EMS Today Conference & Exposition

Fran Hildwine, BS, NREMT-P, CCEMT-P

June 2009 JEMS Vol. 34 No. 6

The JEMS product review team, a group of seasoned EMS providers, scoured the exhibit hall at the EMS Today Conference & Exhibition in March looking for the most innovative, functional and potentially life-saving products to come onto the market in the past six months. This year, the team evaluated more than 70 new products, but they selected the following 30 because they felt they offered remarkable improvements to patient care and provider performance.

### Product Review

### Lumalier EDU-436 Emergency Disinfection Unit

The Lumalier EDU-436 is an advanced, portable disinfection device that provides 3–6 log (unit of measure) disinfection to your ambulance, equipment room or other enclosed areas.

The EDU-436 generates a dose of ultraviolet germicidal energy to quickly and thoroughly destroy most airborne and surface pathogens, re: *C. difficile*, *Acinetobacter*, MRSA, Vancomycin-Resistant Enterococci and other infections, all without the use of chemicals.

For use in unoccupied space, the EDU-436 measures 10" x 10" x 14" and operates at 120V.
