United Enertech Holdings Brings Together the Power of Industry-Leading Brands

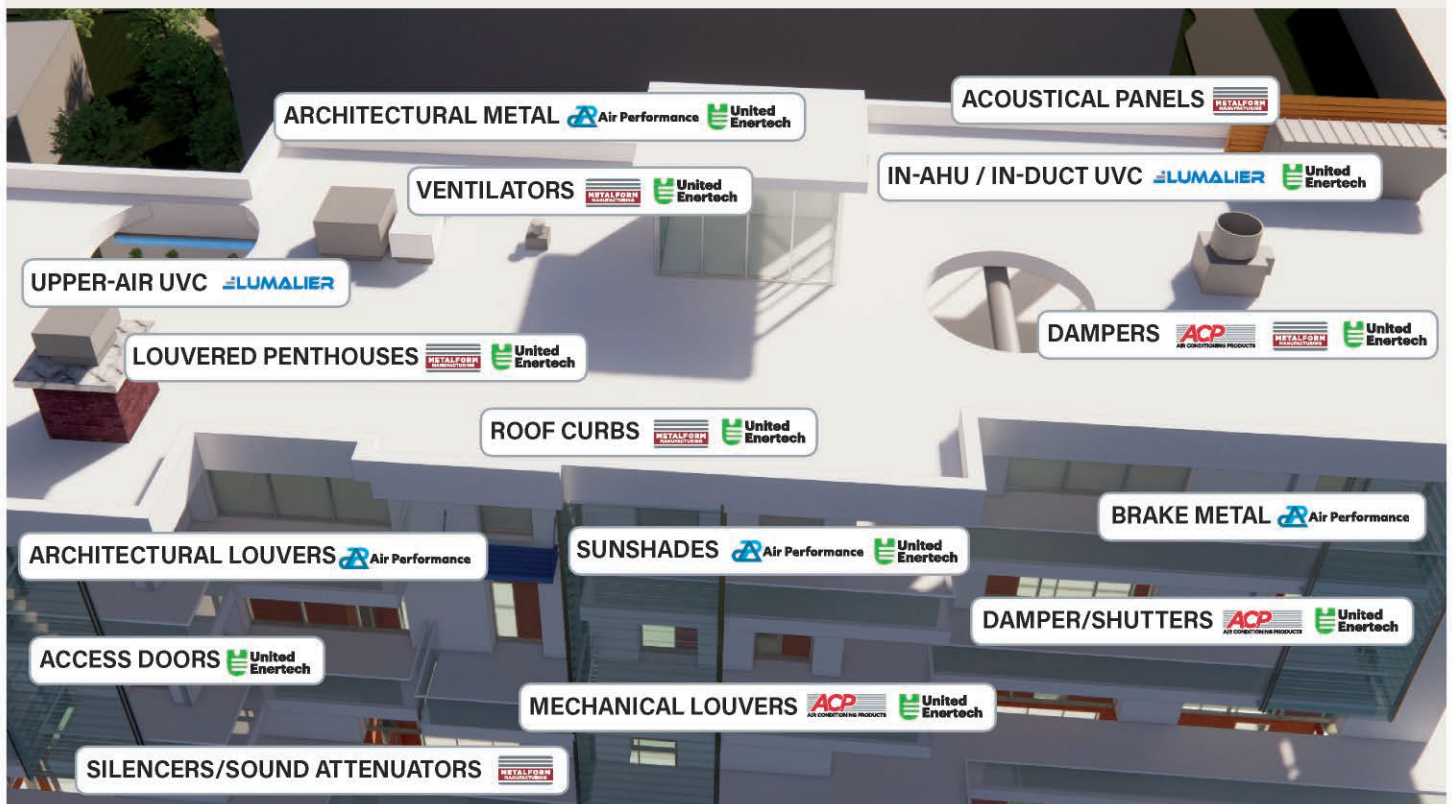

Our companies serve multiple channels across North America and are proven manufacturers and suppliers. We offer our customers the best in HVAC products and expertise through five manufacturing facilities consisting of approximately 500,000 sq. ft., with locations in Alabama, Arizona, Michigan, and Tennessee.

Manufacturing Centers of Excellence Innovation. Expansive Manufacturing Capabilities. Extensive Distribution.

Each of our five manufacturing facilities is a center of excellence, and having locations in the Midwest, Southeast, and West allows for efficient shipping options for our products. From state-of-the-art equipment to innovative engineering, we are setting the standards for the highest quality products and industry-leading turnaround times.

With over 35 years of experience, United Enertech, based in Chattanooga, Tennessee, designs, develops, and manufactures air movement and control products including dampers, louvers, roof curbs and rails, UV, sunshades, grilles and diffusers, access doors, and ventilators.

Industry-best Lead Times
 • 4-week lead times on 80% of louvers

Rush Availability
 • 90% of louver models
 • 100% of aluminum damper models
 • 100% of curtain fire damper models

Rush Options
 • 90% of products on 10-day rush
 • 70% products in less than 10 days rush

On-Time Delivery
 • Dedicated to on-time delivery for rushes and standard orders

Capacity
 • Increased capacity for production

We're proud of how our products stack up against the competition. Many of our products are "Best in Class", with excellent lead times and rush options available. Quality manufacturing, reliable timing, and a team committed to service excellence is what you can expect from United Enertech.
